

## The Claims

1. A solution for eradication of mold comprising about one part by volume of thyme essential oil and 32 parts of water.
2. A solution for the eradication of mold comprising about one part by volume of thyme essential oil and 64 parts of water and one part by volume of substantially equal amounts of the essential oil of: cajeput, cedarwood, citronella, clove, cypress, fir-needle, eucalyptus, garlic, lavender, lemon, lemongrass, marjoram, niaouli, onion, orange, oregano, patchouli, peppermint, rosemary, rosewood, tea tree, y-lang and vetivert.
3. A process for eradication of mold in a dwelling comprising:  
dispersing an aerosol of a solution of about one part by volume of thyme essential oil and 32 parts of water in said dwelling.
4. A process as claimed in claim 1 including substantially sealing said dwelling after dispersal of said solution and establishing a positive pressure greater than the ambient atmospheric pressure in said dwelling for a predetermined period of time.
5. A process as claimed in claim 3 including misting substantially all surfaces in said dwelling with said solution.
6. A process as claimed in claim 3 wherein said solution is a first solution, and including, after the dispersal of said first solution, dispersing, in said dwelling, an aerosol of a second solution of about one part by volume of thyme essential oil and 64 parts of water and one part by volume of substantially equal amounts of the essential oil of: cajeput, cedarwood, citronella, clove, cypress, fir-needle, eucalyptus, garlic, lavender, lemon, lemongrass, marjoram, niaouli, onion, orange, oregano, patchouli, peppermint, rosemary, rosewood, tea tree, y-lang and vetivert.

7. A process as claimed in claim 3 wherein said dwelling includes heat, ventilation and air conditioning ducts throughout said dwelling, and the process includes the aerosol dispersion of said solution in ducts in said dwelling for a predetermined period of time.
8. A process as claimed in claim 7 including misting substantially all surfaces in said dwelling with said solution.
9. A process as claimed in claim 8 including substantially sealing said dwelling after dispersal of said solution and establishing a positive pressure greater than the ambient atmospheric pressure in said dwelling for a predetermined period of time.
10. A process as claimed in claim 9 wherein said solution is a first solution, and including, after the dispersal of said first solution and after a predetermined period of time, dispersing, in said dwelling, an aerosol of a second solution of about one part by volume of thyme essential oil and 64 parts of water and one part by volume of substantially equal amounts of the essential oil of: cajeput, cedarwood, citronella, clove, cypress, fir-needle, eucalyptus, garlic, lavender, lemon, lemongrass, marjoram, niaouli, onion, orange, oregano, patchouli, peppermint, rosemary, rosewood, tea tree, ylang and vetivert.
